

### Preparing Littles for Their Future

When Littles enter high school, BBBSCI continues to support, coach, and provide resources for matches as they work toward graduation. Big Futures offers the over 400 high school-aged Littles served by BBBSCI annually, a series of opportunities focused on the school-to-workforce pipeline. These events encourage Littles to develop hard and soft skills, assist in exploration of different career paths, break down barriers, help Littles make important professional connections, and provide Littles access to important resources.

A group of Bigs and Littles visit IU Bloomington.
